

ROADMAP.md

Atlas Studio Roadmap

Version: 1.0

Vision

Atlas Studio adalah AI Comic Localization Platform yang berfokus pada proses lokalisasi manga, manhwa, webtoon, dan komik dengan editor profesional berbasis AI.

Target utama bukan membuat AI yang menggantikan editor, tetapi membuat editor yang dibantu AI.

Development Principles

1. Ship early.
 2. Build iteratively.
 3. Plugin First.
 4. Everything Editable.
 5. Non-Destructive Editing.
 6. JSON is Source of Truth.
 7. Performance before Features.
 8. AI assists users.
 9. User always has control.
 10. Backward compatibility whenever possible.
-

Phase 0 — Planning

Status

Completed

Goals

- Product Requirement
- Feature List
- UI Concept
- Architecture

- Plugin Concept
- AI Pipeline
- Atlas Document Concept

Deliverables

- Documentation
 - Wireframe
 - Repository Structure
-

Phase 1 — Foundation

Target Version

v0.1

Goals

Membangun editor dasar yang dapat digunakan.

Features

- Authentication
- Dashboard
- Project Management
- Upload Image
- Multi Page Project
- Canvas
- Zoom
- Pan
- Undo
- Redo
- Autosave
- Layer System
- Export PNG
- Export Atlas Project

Acceptance Criteria

- Upload gambar berhasil
 - Membuka project berhasil
 - Canvas stabil
 - Autosave berjalan
 - Undo/Redo berfungsi
-

Phase 2 — AI Core

Target Version

v0.3

Goals

Editor sudah dapat menerjemahkan satu halaman.

Features

- Bubble Detection
- Text Detection
- OCR
- Reading Order
- Translation
- Bubble Only Mode
- Smart Selection
- Translation Preview
- OCR Preview
- Custom Prompt

Acceptance Criteria

- OCR berhasil
 - Bubble Detection stabil
 - Translation berjalan
 - Preview tersedia
-

Phase 3 — Professional Editor

Target Version

v0.5

Goals

Editor siap digunakan untuk workflow scanlation.

Features

- Font Manager
- Font Family

- Font Size
- Text Color
- Outline
- Shadow
- Alignment
- Letter Spacing
- Line Height
- AI Font Match
- AI Color Match
- Match Original Style
- Erase Text & Background
- AI Clean Brush
- Clone Stamp

Acceptance Criteria

- Seluruh text dapat diedit
- Style dapat disalin
- Restore Background berjalan

Phase 4 — Productivity

Target Version

v0.7

Goals

Meningkatkan produktivitas translator.

Features

- Prompt Studio
- Prompt Builder
- Prompt Library
- Translation Memory
- Glossary
- Character Database
- Batch Translation
- Batch Export
- Translation Scope
- SFX Policy
- Macro Recorder

Acceptance Criteria

- Batch translation berjalan
 - Prompt dapat disimpan
 - Glossary diterapkan otomatis
-

Phase 5 — Plugin Platform

Target Version

v1.0

Goals

Membangun platform yang dapat diperluas.

Features

- Plugin SDK
- Plugin Manager
- Plugin Settings
- Workflow Engine
- Workflow Templates
- Storage Plugin
- Export Plugin
- OCR Plugin
- Translation Plugin
- Inpainting Plugin

Acceptance Criteria

- Plugin dapat di-install
 - Plugin dapat di-uninstall
 - Workflow dapat menggunakan plugin berbeda
-

Phase 6 — Cloud

Target Version

v1.5

Goals

Kolaborasi dan sinkronisasi.

Features

- Cloud Project
- Team Collaboration
- Review
- Comment
- Approval Workflow
- Cloud Backup
- Credit System
- Billing

Acceptance Criteria

- Multi-device sync
- Team review berjalan

Phase 7 — Enterprise

Target Version

v2.0

Goals

Menyediakan fitur enterprise.

Features

- Story Mode
- Vision QA
- AI Consistency Checker
- Public API
- SDK
- Analytics
- Automation
- Workflow Marketplace

Acceptance Criteria

- Mendukung publisher
 - Mendukung automation
 - Mendukung API eksternal
-

Long-Term Vision

Atlas Studio akan berkembang menjadi platform yang terdiri dari:

- Atlas Studio
- Atlas AI
- Atlas API
- Atlas SDK
- Atlas Plugin Store
- Atlas Cloud
- Atlas CLI

Semua produk menggunakan Atlas Document Format sebagai format utama.
